EDUCATION

K. K. Wagh Institute of Engineering Nashik, India
BE Computer Engineering
2020-2024

Matoshri Junior College Nashik –2020 HSC Science
Percentage: 78.92%
Mathematics: 94/100

St Francis High School Nashik, India -2018 SSC
Percentage: 87.80%
Mathematics: 100/100

SKILLS

Languages: C++, Python, JavaScript, Html and CSS, Java

Fundamentals: Object-Oriented Programming, DSA

Database: Relational, MySQL

Framework: Express, Django, React, React Native

Tools: Postman, Git, GitHub, MySql, Mongoose

WORK EXPERIENCE

MIBCS Core Committee Member
Under Idea Lab, KKWIEER
- A Club focused on exploring ML, IoT, BlockChain, and CyberSecurity
- Our Club Hosted Expert Talks, Full day Competitions, and many more.

Projects

Graph Visualizer
- https://github.com/Suhaan-Bhandary/GraphVisualizer
- It is a Graph Visualizer created in Java in which one can create custom graphs and visualize BFS, DFS, Dijkstra, Components, Spanning Tree, Bridges, and Articulation points.
- This Project won the First Prize in DSA Mini Project in Second Year.

Lookup
- Our First-year PBL project is based on the topic Online Site for connecting students and teachers
- https://suhaanchetanfenilpbl.pythonanywhere.com/student-page
- **Technologies**: React, Django, Postman, Git and GitHub, Html, CSS

Typing Multiplayer
- **Live Demo:** https://typing-fight.glitch.me/
- **Code:** https://github.com/Suhaan-Bhandary/TypingFightMultiplayer
- **Practice typing** with friends and also **chat** with them!
- **Technologies**: **Javascript**, **npm package manager**, **SocketIo**, Html, Css, glitch for hosting

Django Blog
- **Live Demo:** https://suhaanbhandary.pythonanywhere.com/
- Blog made with Python using Django Framework with backend as **SQLite** and styling with **CSS** and **Javascript**.
- **Django** Blog hosted on Python Anywhere.

Maze Generator
- https://suhaan-bhandary.github.io/Maze-Generator-DFS/
- This project encouraged me to combine my DSA skills with web technologies to create a maze generator using DFS.
- Got knowledge of **frontend development** and started learning **React** and improved my **CSS** and **JS** skills.

Other Projects and Achievements
- Finalist in Hired 2.0
- **Case Studies:** Huffman Coding, Wordle, Sudoku
- Developed **Quine McCluskey** Implementation for minimizing Boolean Expressions using C++
- Developed **Warshall's Algorithm** in JavaScript [https://suhaan-bhandary.github.io/warshallsAlgorithm/]
- Took Part in Elocution Competition and C++ coding competitions.
- Elected to Green House Captain in 9th Standard
- **Typing Speed**: 80 WPM
